

# Hazardous Materials Awareness & Operations

## Certification Procedure Guide

This Certification Procedure Guide reflects the requirements of:

**NFPA 470: Hazardous Materials / Weapons of Mass Destruction (WMD) Standard  
for Responders, 2022 Edition**

# Introduction to HazMat Awareness & Operations Certification

---

FSTB Certification website: <https://dps.iowa.gov/divisions/state-fire-marshal/fire-service-training/certification-accreditation>

Certification Program email: [fstbcert@dps.state.ia.us](mailto:fstbcert@dps.state.ia.us)

FSTB Certification phone number: 515-727-3447

Candidates wishing to attain national certification at the HazMat Awareness & Operations level through the Iowa Fire Service Training Bureau Certification System must start the process by submitting a Certification Examination Registration Form along with the Registration Fee of \$50 due at the time of registration.

The form is available on the certification page of the FSTB website (link provided above) or you can click on the following link to go directly to the form:

[Written & Practical Skills Exams Schedule / Registration Form](#)

The Registration Form (Written & Practical Skills) lists the designated regional sites where examinations are offered with the current schedule of examination locations and dates. Candidates are given twelve (12) months to complete each certification process. This time limit starts when the candidate takes their FIRST examination (written and/or practical skills) in this level.

Starting July 1, 2019 the initial Registration Fee of \$50 allows the candidate one (1) attempt to pass each component, written and practical skills, of the examination. If the candidate fails both the written and practical skills exams, they are charged \$50 to retake **EACH** examination again (i.e., must pay \$100 to take both exams again). If the candidate fails only one of the examinations (either written or practical skills), they are charged \$50 to retake the failed exam.

The FSTB stopped the process of allowing free retakes of examinations beginning on July 1, 2019.

Candidates will have two (2) attempts to pass each skill station during the practical exam. If the candidate fails both attempts at any skill station, this constitutes a practical exam failure for that specific certification level and the candidate will be responsible for notifying the FSTB of their desire to retake the Practical Skills Exam by registering for another scheduled examination site on the FSTB Certification web page. Candidates may not take the practical exam more than once per day.

If the twelve (12) month time limit expires and the candidate has not successfully completed all the requirements for this certification process, the candidate will have to restart the process. All information and documentation relating to the previous certification attempt will be removed from the FSTB database.

Local Documentation Forms must be submitted and approved within the twelve (12) months from when the candidate starts the certification process for this level.

# HazMat Awareness & Operations Certification Requirements

---

## Prerequisites:

Candidates pursuing certification at the HazMat Awareness and Operations level must meet the following conditions:

1. Be a current member of a fire, emergency or rescue organization within the State of Iowa or enrolled in a Fire Science program within the Iowa College System. All candidates pursuing certification shall be at least 18 years of age.
2. There are no additional pre-requisites for this certification level.

**An official picture ID (e.g., driver's license, state-issued identification card, military ID, etc.) must be presented for admittance to ANY written and practical examination.**

## Written Examination:

The HazMat Awareness and Operations written examinations are based on Job Performance Requirements listed in NFPA 470 - *Hazardous Materials / Weapons of Mass Destruction (WMD) Standard for Responders, 2022* edition.

- The HazMat Awareness written examination contains 30 multiple choice questions. The HazMat Operations written examination contains 50 multiple choice questions. This examination is offered as a **COMBINED** hard copy examination, however, **EACH EXAMINATION IS GRADED SEPARATELY**. The electronic online examinations are separate.
- Candidates are required to score a minimum of 70% on both written examinations. Candidates who fail either or both written examination(s) are responsible for notifying the FSTB of their desire to retake the written examination by registering for another examination site and paying another registration fee of \$50. Candidates may not take the written examination more than once per day.
- The below chart shows the maximum time allowed for the written examination based on the number of questions on the examination.

# of Questions	Time
30	36 Minutes
50	60 Minutes
75	90 Minutes
80	96 Minutes
100	120 Minutes

## **Practical Skills Examination:**

The HazMat Awareness and Operations practical skills examination is based on Job Performance Requirements listed in NFPA 470 - *Hazardous Materials / Weapons of Mass Destruction (WMD) Standard for Responders*, 2022 edition.

- Practical skills are evaluated on a Pass / Fail basis determined by completing 100% of the skill steps.
- **Two (2)** skills will be randomly selected and evaluated for each examination site.
- Candidates are allowed two (2) attempts to pass each skill station. Candidates failing their first attempt will return to the designated staging area and upon availability, be evaluated on their second attempt by a different evaluator. Candidates who fail both attempts, constituting a failure of the practical skills examination, are responsible for notifying the FSTB of their desire to retake the practical skills examination by registering for another examination site and paying another registration fee of \$50. Candidates may not take the practical skills examination more than once per exam day.

## **Practical Skills Available for Evaluation:**

1. Analyze the Incident and Implement the Response
2. Demonstrate Emergency Decontamination
3. Mission-Specific Competencies PPE: Don, Work-In, and Doff PPE & SCBA
4. Hazardous Materials Recognition, Identification, and Notification
5. Mission-Specific competencies Product Control: Product Control Techniques

## **Local Documentation Form:**

1. The candidate may submit the Local Documentation Form, signed by the Fire Chief, Training Officer or College Program Chair at ANY time during the one-year time frame AFTER their examination registration has been entered into the FSTB Certification database.
