### What is the intended benefit of the rule?

The intended benefit of this rule is to define the capabilities of the state criminalistics laboratory. These rules also govern the submission of evidence to the laboratory, distribution of reports, and disposition of evidence.

### Is the benefit being achieved? Please provide evidence.

Yes, law enforcement agencies submitting evidence for testing and analysis can easily understand the laboratory's capabilities and how to go about sending in their evidence, obtaining the report, as well as how to retrieve it once analysis is complete.

### What are the costs incurred by the public to comply with the rule?

There is no cost to submit evidence for analysis, but the submitting agency is responsible for transporting or mailing the evidence to the laboratory.

### What are the costs to the agency or any other agency to implement/enforce the rule?

If the evidence is returned to the submitting agency via mail, the Department bears the cost of shipping.

### Do the costs justify the benefits achieved? Please explain.

Yes, there is virtually no cost to submit evidence to the lab for analysis. Law enforcement agencies from around the state benefit from having trained laboratory staff performing forensic scientific analysis on evidence they submit, further aiding in investigation and prosecution of crimes.

### Are there less restrictive alternatives to accomplish the benefit? ☐ YES ☒ NO

If YES, please list alternative(s) and provide analysis of less restrictive alternatives from other states, if applicable. If NO, please explain.

No, the Department has determined this to be the least restrictive and least costly method to accomplish the intended benefit of the rule.

**150.1(1) Identification.** The state criminalistics laboratory will be known as the division of criminal investigation criminalistics laboratory. Unless the context clearly implies otherwise, the term “laboratory,” when used in this chapter, means the division of criminal investigation criminalistics laboratory.

**150.1(2) Administration.** The laboratory will be headed by an administrator who reports to the director of the division of criminal investigation.

**150.1(3) Contact information.**

*a.* The address of the laboratory for receiving mail or shipped materials is:

Iowa DCI Criminalistics Laboratory  
2240 South Ankeny Boulevard  
Ankeny, Iowa 50023

*b.* The telephone number of the laboratory is (515)725-1500.

*c.* Information regarding the laboratory may be obtained from the department Web site.

NOTE: Currently, information about the laboratory may be found at [www.dps.state.ia.us/DCI/Crime\\_Lab/index.shtml](http://www.dps.state.ia.us/DCI/Crime_Lab/index.shtml).

**661—150.2(691) Purpose and scope of work.** The laboratory provides forensic science services to law enforcement agencies within the state of Iowa. The laboratory will, within its capabilities, conduct analyses and comparative studies on physical evidence to aid in any criminal investigation, when requested by a prosecuting attorney, a medical examiner, or a law enforcement agency.

**150.2(1) Resource or capability limitations.**

*a.* The laboratory administrator may refuse any request to conduct an analysis when, in the judgment of the administrator, the laboratory is unable to adequately conduct the requested analysis, either because of resource limitations or because the analysis is not within the professional capabilities of laboratory personnel.

*b.* The laboratory administrator may establish a policy excluding evidence of specific types or evidence arising from certain types of cases from being accepted by the laboratory, if the administrator finds that such a policy is necessary either due to resource constraints, safety concerns, or the professional capabilities of laboratory personnel. Any policy adopted pursuant to this paragraph will be made available to all county attorneys, medical examiners, and law enforcement agencies within Iowa.

*c.* If analysis by the laboratory of specific evidence arising from a criminal investigation in Iowa has been excluded pursuant to either paragraph “a” or “b,” the administrator may, at the administrator’s discretion, assist the agency requesting the analysis in locating the services of another laboratory able to perform the requested analysis.

**150.2(2) Exclusion by law.** The laboratory will only perform analyses which have arisen from, or will aid in, criminal investigations or which are otherwise provided for by law.

**661—150.3(691) Laboratory capabilities.** The laboratory is capable of performing any forensic scientific analysis for which a laboratory staff member has received appropriate training and for which the necessary equipment and materials are available to the staff member performing the analysis.

Any evidence to be submitted to the laboratory will be entered electronically into the laboratory information management system prior to submission. Each entry will include a description of each item to be submitted and an examination request for each item to be submitted.

NOTE: Access to the laboratory information management system is restricted to authorized users representing agencies authorized to submit evidence to the laboratory. Authorized users should contact the laboratory for instructions regarding access to the system.

**150.4(3)** Evidence submitted to the laboratory which is not personally delivered will be packaged in such a manner that laboratory personnel can determine that the package has not been opened while in transit. If the laboratory receives an unsealed or damaged package, the laboratory may refuse to process such evidence, if the integrity of the evidence has been compromised.

**661—150.5(17A,691) Distribution of reports.**

**150.5(1)** A copy of each completed report of analyses performed by the laboratory will be provided to the submitting officer and to the prosecuting attorney. The prosecuting attorney is responsible for providing copies of any laboratory report to the defendant or defendants as required by law.
