

BE PREPARED WHEN COMMUNICATION MATTERS MOST

ARE YOUR RADIOS UP TO DATE? WE MAY BE ABLE TO HELP!

Iowa was recently awarded a \$1.8 million grant through the Rural Emergency Medical Communications Demonstration Project (REMCDP) to assist with EMS communications.

Iowa has a statewide public safety grade communications system. This grant will help facilitate successful medical communications across Iowa's Region 1.

We're looking for all EMS services and hospitals within ISICS Region 1 with on-demand, interoperability communication needs.

Scan the QR code or go to isicsb.iowa.gov to learn more about how your Region 1 Iowa agency can benefit. Our team will work with you to provide equipment, training and support for your emergency medical communication needs.
