Risk Management at Every Level: Understanding the Risk and the Roles Officers & Chief Officers Play

*Presented by
Chief Jerry Holt*

We have all heard of “risk management” in the form of assessing risk versus benefit on the fire ground. But does it stop there? Risk management is an ongoing effort to maximize results and minimize loss. From the fire-ground to the fire station, your officers should be using risk management to keep you personnel safe and satisfied. In this presentation we will discuss the responsibilities of being a risk manager as an officer.

Chief Jerry Holt

Chief Holt serves as the Fire Chief for the Urbandale Fire Department where he has been the Chief for since 1998. He has been an EMT since 1980 a paramedic since 1985, and is currently an instructor for the Fire Service Training Bureau.

Chief Holt's formal education includes a Master's degree in Leadership, a Bachelor of Science in Emergency Medical Services, an Associate of Applied Science degree in Fire Science, he is a graduate of the National Fire Academy's Executive Fire Officer Program and holds the Chief Fire Officer designation from the Center for Public Safety Excellence.

Chief Holt is a member of several fire service organizations including the National Fire Protection Agency, the International Association of Fire Chiefs, Past President of the Iowa Association of Professional Fire Chiefs, and the Past President of the Polk County Fire Chief's Association.

ISO Upgrades and New Website Information

*Presented by
Sam Peterson*

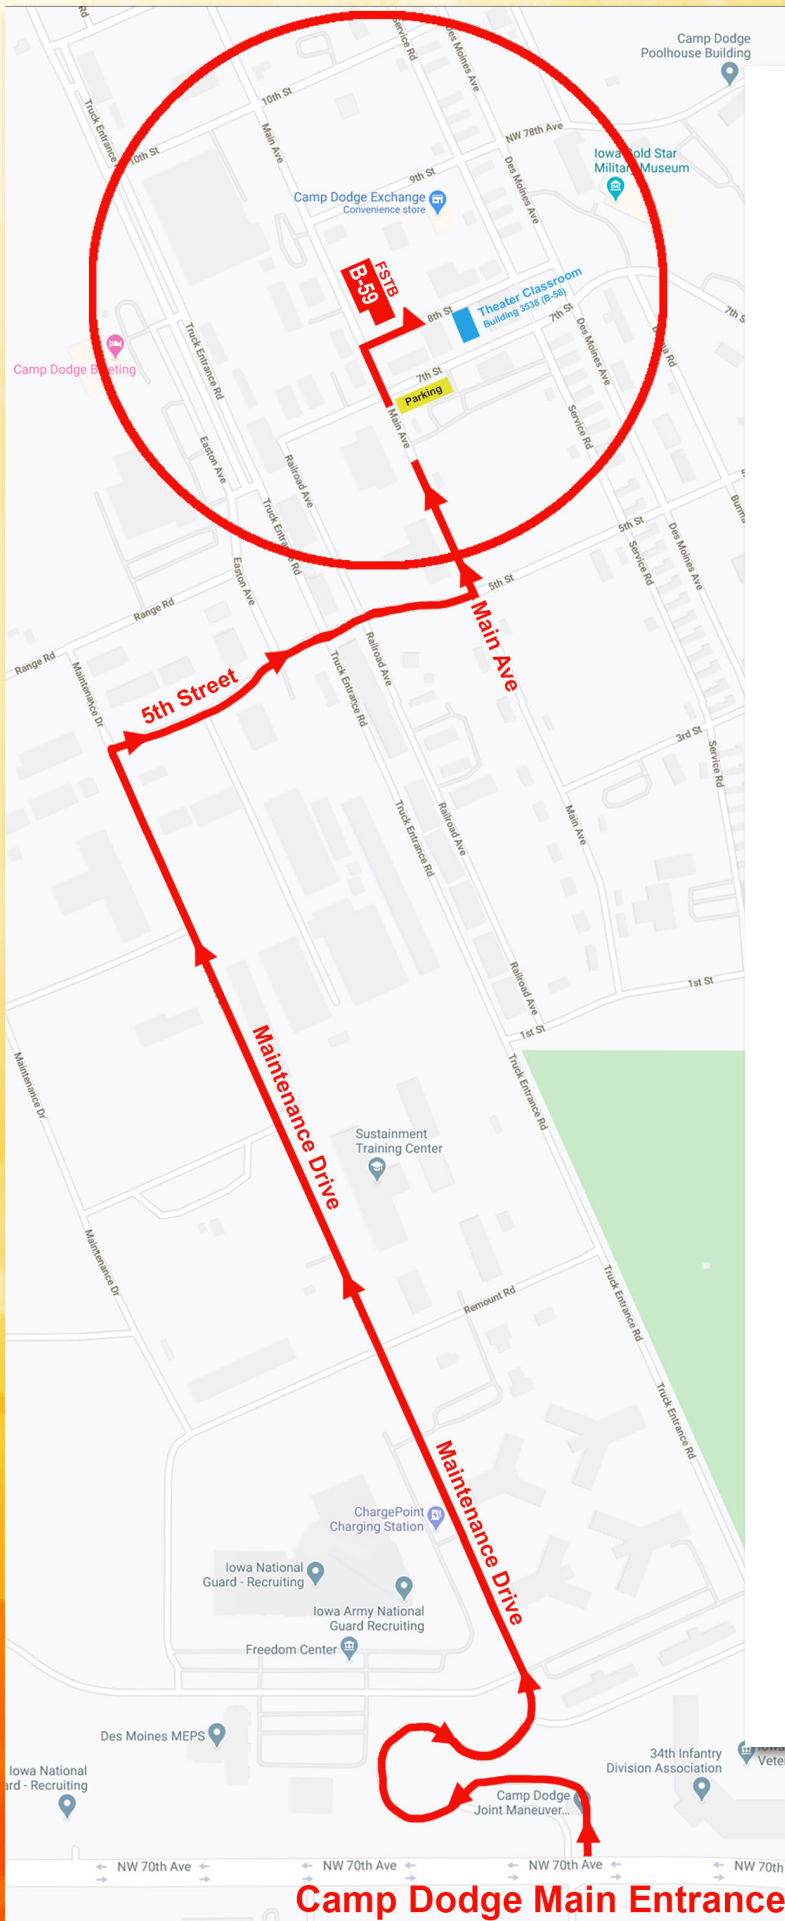

Sam Peterson will discuss the new ISO Mitigate website, as well as a quick overview of the hauled water program and the differences between that grading and a solely hydrated grading.
